Advanced Manifesting and Magnetizing

Orin and DaBen gave us a twelve-step advanced manifesting process to assist you in creating something specific in your life. The results for people who used these processes have been wonderful. This course was originally taught in 1989. These were recorded with the technology available at that time, and are in their original, unedited form. These are not the same quality as our current seminars

People have been writing to tell us that what they worked on manifesting has come into their lives—an agent to get his book published for one man, a new healing guide for a woman, a new car, house, a dramatic increase in sales and business for several people, and a clearer vision of their life's work and higher purpose for several others. We want to share this process with you so you can begin now to create what you want.

In this course, you will pick one thing you want to manifest, and use this twelve-step process to bring this thing into your life in its highest possible form. Once you learn the process, you can use it in minutes to create anything else you want.

Orin and DaBen lead meditations on:

- Turning what you want into energy
- Bringing the energy of what you want into your DNA
- Discovering the essence of what you want, and the quality it will give you
- Utilizing the power of your emotions to draw it to you
- Opening to receive, allow, and deserve what you want
- Bringing in your higher self to advise you about manifesting
- Journey to the Temple of the Masters to discover your life purpose, align with higher evolution, and more
- Reprogramming at a cellular level for abundance
- Expanding and contracting time – get what you want sooner
- Harmonizing your energy bodies to get into higher states for manifesting
- Opening your first chakra to release survival issues
- Opening the area around your heart to be able to receive
- Raising your vibration, creating a greater energy flow

Orin and DaBen answer questions about manifesting; Duane and Sanaya talk about their experiences using these processes. This course comes with instructions and a printed summary of the twelve steps. Create prosperity now and have abundance in every area of your life. Over eight meditations with talks.
